

Project Report

Project Name: Rural Healthcare Expansion

Category: Healthcare

Estimated Cost (INR): 18,50,00,000

Start Year: 2025

End Year: 2029

Duration (Years): 4

Project Description:

This project aims to enhance healthcare access in rural areas by building primary health centers (PHCs) and mobile medical units. The initiative will focus on improving maternal and child health, immunization programs, and emergency medical services. The implementation includes setting up telemedicine services and deploying trained medical staff to underserved regions.
